Update No. 14

General	By Chad Norton and Chris Elkins. Rainfall was again scattered this past week with most fields receiving zero while Lee received 1.1". No new fields were found to need treatment for bollworms this week, however, Chicot reached treatment level stink bugs and was treated. Jefferson was the first to reach R6 and one more irrigation should finish it off. Refer to information in table for field specifics.		
County	Variety	Stage	General Information
Arkansas	Pioneer 49T80R	R2	Third irrigation applied 7-13-16. Fourth irrigation on 7-19-16. Field has exhibited excellent growth over the past three weeks. Insect and disease free.
Ashley	Asgrow 4835 RR/STS	R4	Received 1" rain which pushed third irrigation to 7-16-16. Applied 2 oz. Belt + 1% MSO on 7-8-16 for bollworms, cleaned up. Now canopied. Very solid looking field.
Chicot	Asgrow 4632 RR/STS	R5	Received .4" rain. Second irrigation applied 7-10-16. Third irrigation should be applied 7-17-16 if no rain. Treatment level stink bugs, recommended 1 gal/25 acres Brigade + 1% MSO. Disease free.
Desha	Asgrow 4632 RR/STS	R5	Fourth irrigation applied 7-13-16. Next irrigation on 7-19-16. Looks great. Insect and disease free.
Drew 1	Pioneer 47T36R	R4	Received .4" rain, relieved drought stress symptoms a little more, holding up fairly well. Still need more rain, lots of pods. Running 7.07" moisture deficit. Insect and disease free.
Drew 2	Asgrow 4632 RR/STS	R2	Second irrigation applied 7-9-16. Belt application cleaned up bollworms. Good growth over past week.
Jefferson	Stine 42LH22	R6	Received .5" rain. Fair moisture still in field, will need to irrigate once more. Frogeye leaf spot showed up over the past week. Insect free.
Lee	UA 5814 HP	R2	Received 1.1" rain. Should receive second irrigation over the weekend. 1.5 pt. generic metolachlor applied right before rain. Little worrisome full flower at V12-13. Very close to canopy. Remains pretty clean, little grass.
Lincoln	Asgrow 4632 RR/STS	R5	Sixth irrigation applied 7-11-16. Next irrigation will be determined after visit next week. Still very good looking field. Many more pods set over the past two weeks. Insect and disease free.
Lonoke	Stine 51LE20	R2	Should receive second irrigation 7-19-16. Very good growth over the past week. Insect and disease free.
Monroe 1	UA 5213C	V14	Initial irrigation on 7-12-16. Next irrigation 7-21-16 if no rain. Should see good growth spurt from irrigation. Clean.
Monroe 2	Pioneer 50P40	V8	Should receive initial irrigation this week. Excellent growth over the past week. Little grassy, probably recommend glyphosate next week.
Phillips 1	Hutcheson	R2	Should receive initial irrigation soon, having power unit issues. Timely rains have helped in field holding up fairly well. Few adult kudzu bugs.
Phillips 2	Pioneer 47T36R	R5	Second irrigation applied 7-13-16. Next irrigation on 7-19-16 if no rain. Stink bugs running 2/100 sweeps. Disease free.
Prairie	Asgrow 4632 RR/STS	R4	Second irrigation applied 7-13-16 (week late). Next irrigation on 7-19-16 if no rain. Field looks very good. Insect and disease free.
