

General	By Chad Norton and Chris Elkins. Rainfall was again spotty this past week ranging from zero at a few fields, and as usual dryland fields received no rain, to 1.9" at Chicot. Jackson County got planted over the past week which leaves only Washington un-planted. Luckily, most of the fields received some rain to activate residual herbicides, however those that didn't were irrigated. Chicot and both Desha fields turned reproductive the past week. Refer to table below for field specific information.		
County	Variety	Stage	General Information
Arkansas	Asgrow AG46X6	V3	Received .78" rain. 1 qt. RoundUp PowerMax applied 5-30, cleaned field up. Middles still need to be plowed and residual applied.
Ashley	Terral REV 48A26	R2	22 oz. RoundUp PowerMax + 1.33 pt. Charger Basic applied 6-6. Polypipe laid 6-7, should irrigate very soon. Very good growth over the past week.
Chicot	Armor 48-D24	R1	Received 1.9" rain. Beginning rapid growth. Still mostly clean, little grass beginning to emerge. Initial irrigation 6-12 if no rain.
Clark	Pioneer 54A54X	V5	Applied 1 lb. glyphosate + 2 oz. Zidua 5-28. Cleaned field up but hasn't received any rainfall to activate the Zidua. Initial irrigation 6-12 if no rain.
